BIOGRAPHY

Craig Sanders

AGI plant manager at Joplin, Missouri

Craig Sanders has served as AGI Joplin Plant Manager for almost two years. He oversees the production of AGI Food related systems including silos, platforms, hoppers, and other custom systems to be used primarily in the pet food industry. A native of Southeast Kansas, Craig has spent 27 years in the manufacturing and production environment including the Aerospace, Bolted Silos and Plastics Industries.

He resides in Chetopa, Kansas where he is active in community service including 16 years on the local school board, volunteering with the local little leagues, and a former member of the Labette Community College Welding Advisory Committee. He has three adult children and five beautiful grandchildren.
