BULK-FLO™

Bulk-Flo™

Dependable performer for the most severe applications

Rugged & Versatile

The AGI TRAMCO Bulk-Flo™ heavy-duty chain conveyor is built to work in processing applications handling materials that are wet and sticky, vary in size and/or density, and/or are abrasive or corrosive. The unsurpassed quality and construction of the Bulk-Flo conveyor series assures years of dependable service under the most severe conditions.

Each system is individually designed for your specific application. AGI Tramco offers custom design, components and materials.
