HOPPER WHEEL KIT

The kit includes two wheels, two wheel brackets and mounting hardware. This kit is made to fit 8" x 4" or 8" hoppers and 10" x 4" or 8" hoppers. The 11/32" dia. mounting holes will need to be drilled in the hoppers, so the wheel brackets can be attached to the hopper.

On 8" models locate the holes by sliding the wheel bracket lip tight under the lip. See Fig. A.
On 10" models locate the hole by sliding the wheel bracket to 1" below the lip. See Fig. B.

QTY.  REF. NO.  PART NO.  DESCRIPTION
2     1     1010886   Wheel Bracket
2     2     1004721   Wheel (8" O.D. x 1 3/4" wide)
