**Hutchinson/Mayrath**

**GEARBOX INFORMATION**

The following instructions are to be used for assistance with the set-up and installation of equipment, accessories, and serviceable parts used on this machinery and are not meant to replace any operating or safety procedures as outlined in the Operator’s Manual included with the auger.

This safety symbol is used throughout these instructions to alert you to information about unsafe actions or situations, and will be followed by the word DANGER, WARNING, or CAUTION. Be Alert! Your safety and the safety of others is involved.

**DANGER** - Indicates immediate hazards that may result in severe injury or death. **WARNING** - Indicates unsafe actions or situations that may cause severe injury, death and/or major equipment or property damage. **CAUTION** - Indicates unsafe actions or situations that may cause injury, and/or minor equipment or property damage.

---

**WARNING!** Do Not enter the bin unless all power driven equipment has been shutdown and locked out.

Electric motors and controls shall be installed by a qualified electrician and must meet the standards set by the National Electric Code and all local and state codes.

A main power disconnect switch that can be locked in only the “Off” position shall be used. This shall be locked whenever work is being done to the auger.

---

**Gearbox Metric Bolt Kit**

**used with the**

**NexGen 3150 Klean Sweep**

**IMPORTANT!**

This hardware kit contains Metric Bolts and Lock Washer’s. These items **must** be kept separate from the other standard hardware shipped with the unit.

Make sure to use the metric bolts in the appropriate locations on the gearbox as shown in Fig. 1 below. Note: **Do Not** use standard hardware in these locations, Damage to the threads in the gearbox will occur.
