

Grain & Soft Stock Scales

AGI's grain and soft stock scales deliver fast, accurate weighing and seamless integration within the feed system, ensuring precise batching and consistent feed quality.

Key Advantages

Unmatched Precision

Controlled scale systems create accurate feed formulations to ensure consistency in product quality.

Faster Operations

High speed weighing reduces time spent batching feed and keeps feed delivery on schedule.

Lower Feed Waste

Precise weights prevent excessive use of ingredients, minimizing waste.

Technical Specifications

Capacity	1 MT Capacity each (48 lbs/ft ³ , 769 kg/m ³)
Load Cell Quantity	3 load cells
Loading Options	Fed by overhead bins or bulk storage bins via screw conveyors on VFDs
Construction	Carbon steel housing

Performance Data

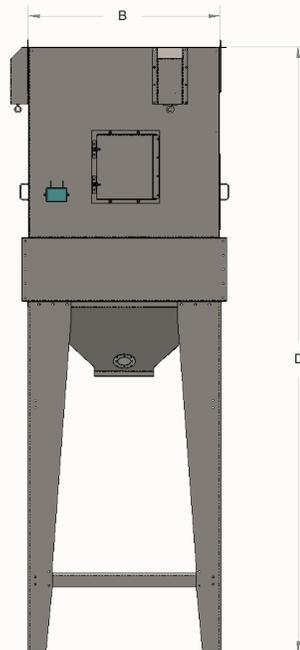

Scale capacity
1000 kg/2204 lbs

Load cell configuration
3x1500 lbs/680 kg

Number of graduations
5000

Graduation size (kg)
0.2

Estimated error (kg)
± 0.4

Dimensions (in)

A	B	C	D
131 7/32	54 7/32		172
