

FUEL-VAULT®

RECTANGULAR CONTAINED TANKS

AGI WESTEEL

ULC S601/S602 - 1,100 L TO 5,000 L

The Fuel-Vault® rectangular contained is engineered to store flammable and combustible liquids such as gasoline (ULC S601 only), diesel, solvents or paint products. Easy to use and install, the double wall containment provides protection against costly and environmentally damaging leaks or ruptures. Best of all, it is manufactured by AGI Westeel to meet or exceed all national regulations and to provide years of worry free service.

FEATURES

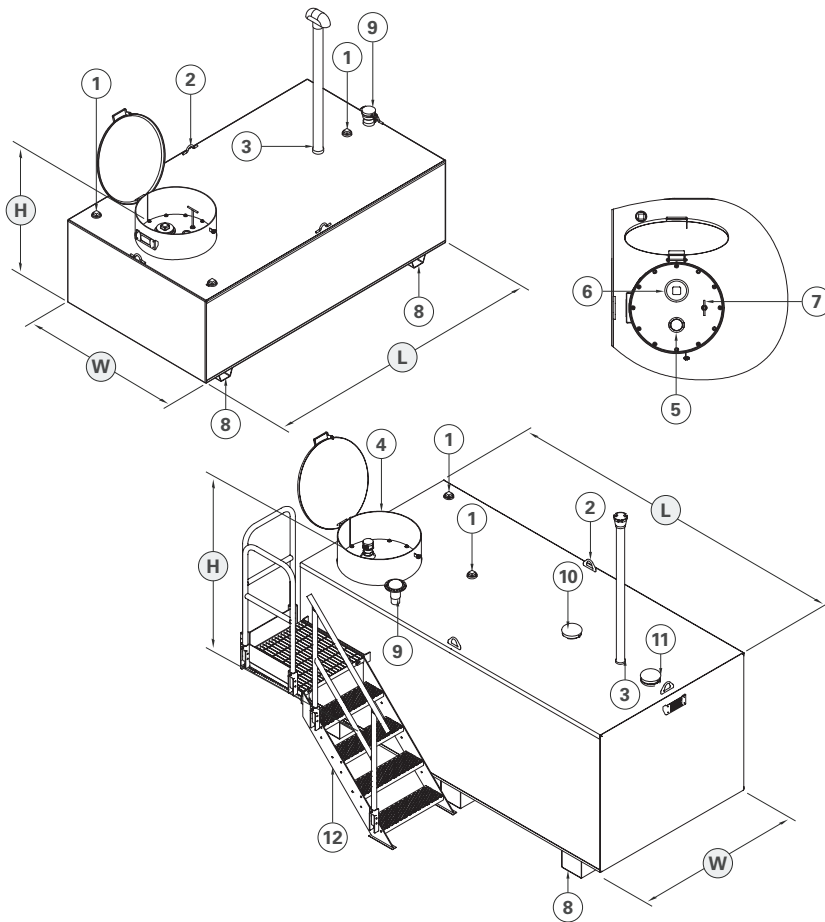

- » Durable all steel double wall construction in a compact low profile design
- » Large spillbox with removable bottom access plate and a lockable weatherproof cover
- » Weather and corrosion resistant white powder coat finish on exterior
- » Space between the inner and outer tank with a port to check for any fluid release from the primary tank
- » Easy attachment to auxiliary equipment

ACCORDANCE COMPLIANCE

- » CAN/ULC S601 (RFV2400 through RFV5000 only)

TYPICAL APPLICATIONS

- » Vehicle and equipment maintenance
- » Oil and gas facilities
- » Manufacturing facilities
- » Agricultural facilities

TANK LAYOUT

- | | | |
|---|----------------------------|--|
| 1. 2" NPT - spare port | 3. 2" camlock and dust cap | 10. Primary emergency vent |
| 2. Lift lugs | 4. 4" fill port | 11. Secondary emergency vent |
| 3. Primary tank normal vent port (stack & vent cap shipped loose) | 7. Spill box drain plug | 12. 12. Stair assembly (RFV5000 only)* |
| 4. 24" spillbox (fill, gauge, drain) | 8. Support legs | |
| | 9. Inspection/vent port | |

* optional equipment
