

TRAMCO DELUXE INSPECTION PACKAGE

Includes all Tramco conveyors, in use at your facility, to check for undue wear or stress placed on the conveyors. This package allows for an average of 1 hour to be spent on each conveyor to determine/assess the reliability of the conveyor to meet required performance expectations.

Deluxe Inspection includes these points for each conveyor:

- Visual along with audio review of each operating conveyor
- With plant permission, pull cover(s) off of each conveyor to inspect the internal dynamics of each conveyor for wear points or signs of stress placed on the conveyor.
- Chain performance, in relation to, the specifications of the chain and flights to deliver proper running stability along with meeting design specifications.
- Inspect head & tail sprockets for wear/damage.
- Inspect head & tail shafts for wear/damage.
- Inspect belts for wear/damage or splice issues.
- Inspect bearings for wear/damage.
- Inspect drive components
- Inspect conveyor intermediate section for undue wear/damage both inside and externally.
- Inspect overall alignment of the conveyor.
- Inspect chain, belting material for wear, tension, flights, splices etc., for undue stress or wear points.
- Inspect carry back rails for stress or damage.

Inspect drive mount for stress or wear.

Cost for Tramco Deluxe Inspection package, is **\$1,875.00** per day, based upon 10 hour day at site. Included in this cost are all expenses for the Tramco Field Service Engineer to perform this inspection per your allotted time.

If you are interested in scheduling an inspection, please call:

Kevin Byfield, Field Service Engineer | 316.247.5464

Mark Cloud, Technical Manager | 316.491.8221

Tramco looks forward to offering your facility our inspection services.
