

A285/A286 Intake Hopper Tarp Installation Instructions

Applicable Models:

- **Westfield STX2, WRX, STX, TF, TFX, TFX2, W13 Series**
- **AGI XTA, WRX Series**
- **Hutchinson STX2, WRX, W13 Series**
- **Mayrath STX2, WRX, W13 Series**

Attaching the Hopper Tarp

1. Attach three tarp support by locking it into the centre of the hopper guard. The tarp support provides a peak in the tarp for better water run-off, and can be easily removed for intake hopper operation.
2. Pull the tarp over the hopper and secure the sides of the tarp with straps running under the intake hopper.
3. Secure the tarp at the hopper handle with straps running under the handle.
