

AUGER OR CONVEYOR?

COMPARE THEM, THEN TALK TO YOUR DEALER

For Similar Grain Handling Capacity:

AUGER

CONVEYOR

Initial investment is typically less than for a conveyor

COST EFFICIENCY

Conveyors can have a much longer service life

Augers are suitable for a wider range of crops

CROP HANDLING

Conveyors provide gentler handling for specialty crops and seeds

Augers require double the horsepower that a conveyor does

OPERATIONAL REQUIREMENTS

A conveyor needs to be 20% longer than an auger to reach the same bin height
