

AGI  SURETRACK AGI  COMPASS

**Your operation's success
is in your hands.
Introducing Compass™**

Value Proposition

AGI SureTrack with Compass is all in one tool that puts all business requirements into one Management Platform.

Customers come to us when they struggle with yearly forecasting managing their AR/AP, Cashflow, ROI and Payroll. We help them by making access to this Data more visible allowing them to make more informed business decisions.

Imagine the benefit of having your finances linked to each part of your operation in one place, accessible from anywhere at anytime.

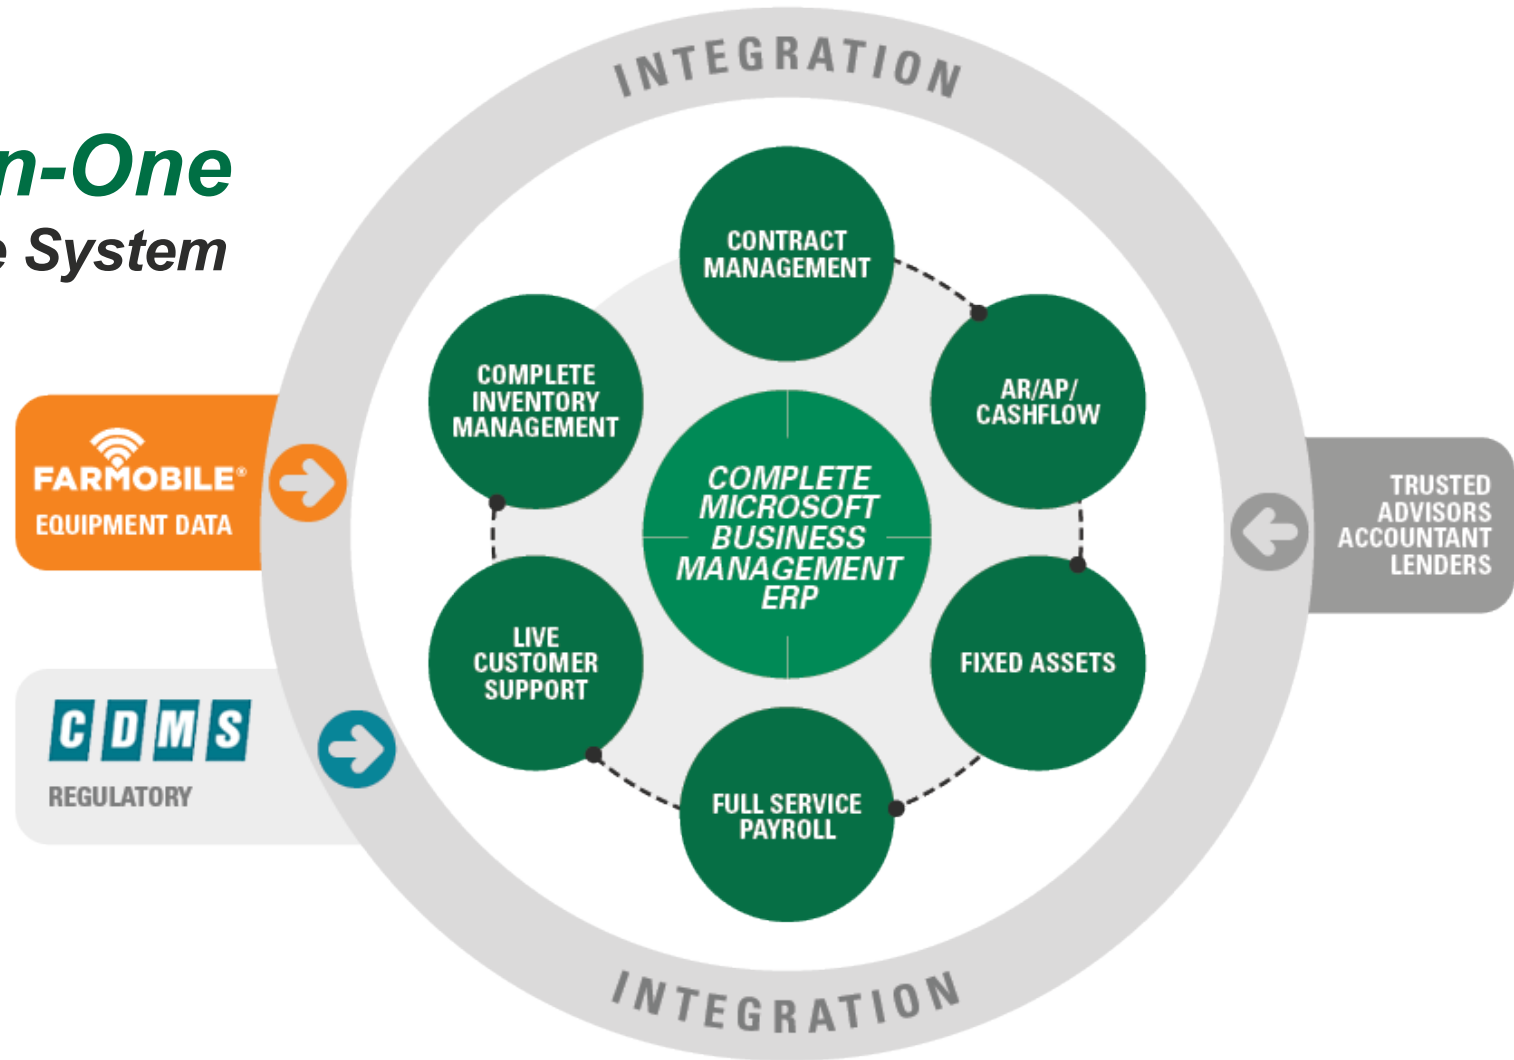

How does this fit with your business today?

Objective

To provide AGI Dealers with specific Business management tools, support and resources for their day-to-day operations.

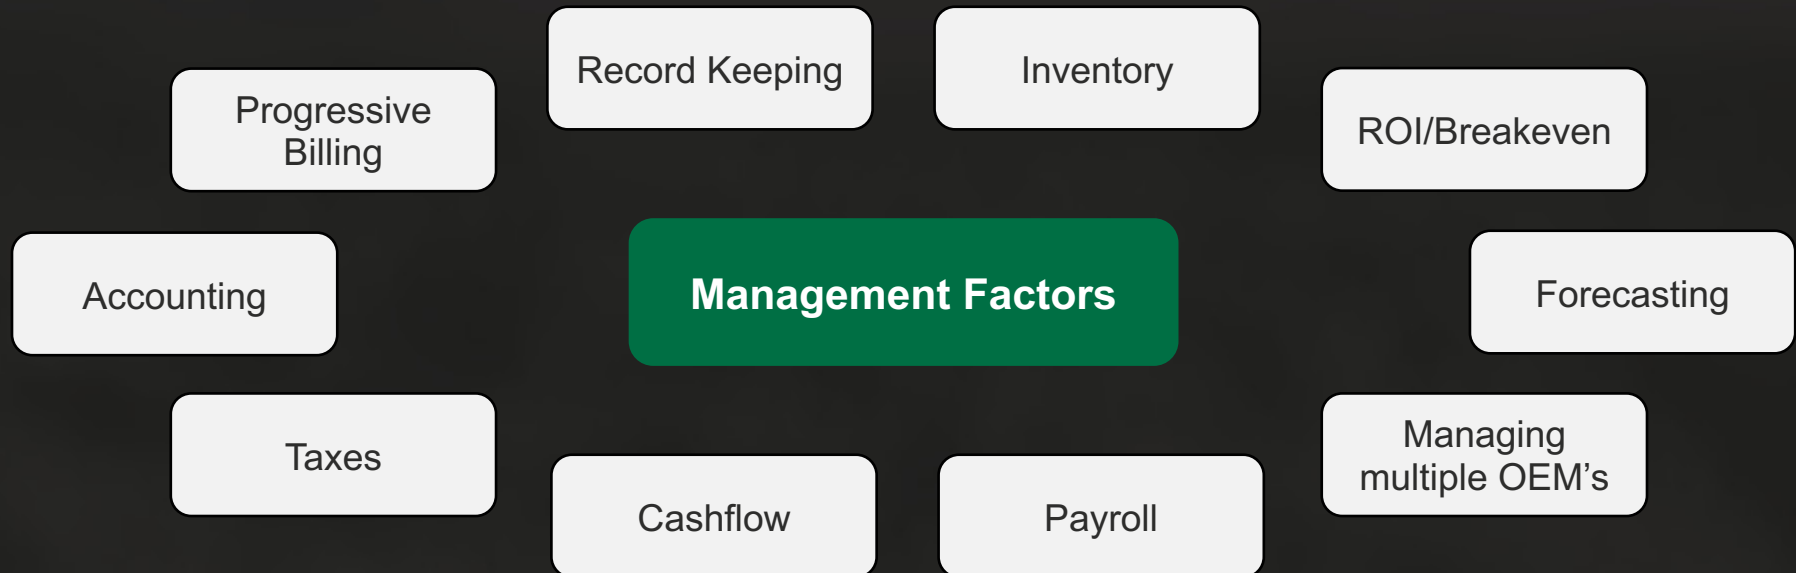

Compass is a Microsoft Dynamics proven and established all-in-one mobile Dealer Business Management system that allows our AGI Dealer complete control of all their financial management requirements and MORE!

All-In-One Mobile System

Dealers Have Many Factors to Manage

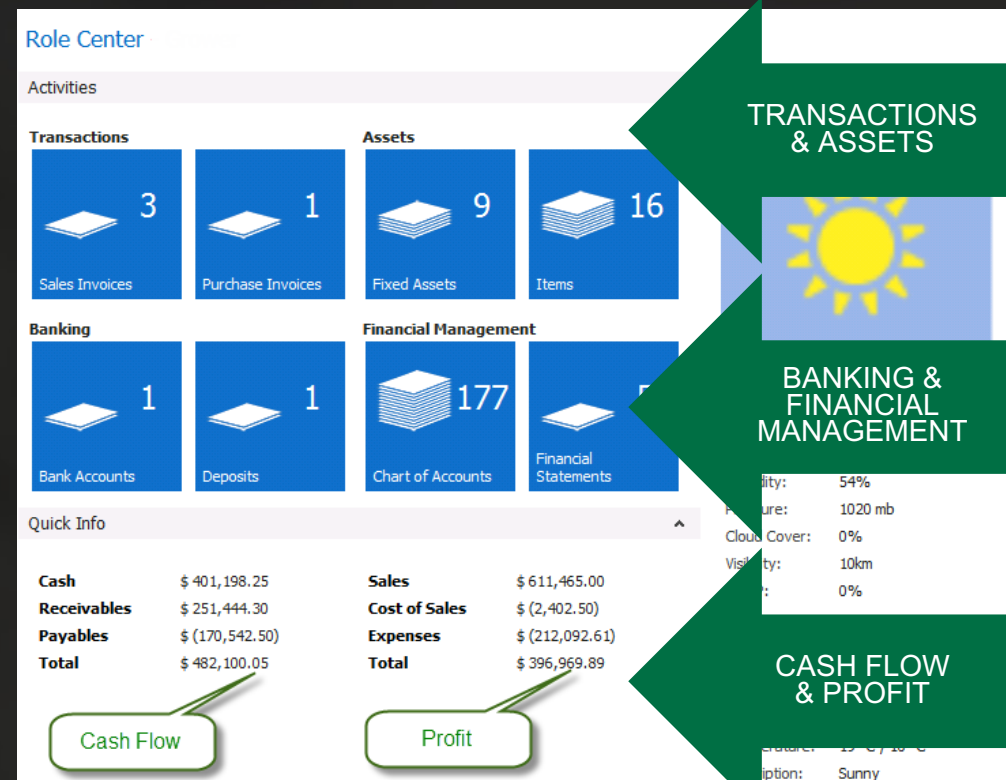

Dealer Business data management is an essential part of any successful Dealer
