AGI IPPE Images, Video and Brochure

	<p><u>AGI FLEXmill</u></p> <p><i>The AGI FLEXmill is a configurable feed processing solution, pre-engineered for commercial and on-farm producers seeking greater control and consistent feed quality.</i></p>
	<p><u>AGI Spokesperson: Noam Silberstein, Senior Vice-President, Global Food & Feed</u></p> <p><i>Noam Silberstein joined AGI in 2017 and is accountable for sales, engineering, manufacturing and project delivery across the Global Food & Feed Platform. He also leads AGI's Corporate Development Function, including M&A, strategy, investor relations and sustainability. He holds a Bachelor of Commerce Degree from McGill University, is a Chartered Financial Analyst (CFA) and is a Lean Six Sigma Black Belt.</i></p>
	<p><u>AGI Spokesperson: Shawn Conway, Director, Global Feed</u></p> <p><i>Over the past 20 years Shawn Conway has worked on developing and executing global projects in the federal government, oil and gas, mining and agricultural sectors. Since joining AGI in 2017, he has</i></p>

	<p><i>been a senior operations leader within our commercial business, leveraging our product offering to ensure clients receive the best AGI solution. As part of that offering, he has led the delivery of various feed mill projects within North America, including our FLEXmill systems.</i></p>
	<p><u>In-booth Presenter: McKenna Baron, System Support Engineer</u></p> <p><i>McKenna Baron is a System Support Engineer at AGI specializing in feed processing system design. A McGill University Bioengineering graduate (May 2024), she supports customers through process calculations, layout development, and capacity analysis. She works closely with customers to deliver efficient, flexible feed mill solutions.</i></p>
	<p><u>In-booth Presenter: Pierre-Yves Adeux, Senior Consultant and Business Developer</u></p> <p><i>Pierre-Yves Adeux is a Senior Consultant and Business Developer with AGI, a global leader in the planning, engineering and manufacturing of integral solutions. His experience spans thirty years in the design, installation and operation of agribusiness projects. His focus has been pet food and feed processing plants globally.</i></p>
