AGI Bucket Elevator Images and Brochure

	<p><u>AGI Bucket Elevator</u></p> <p><i>AGI's new Bucket Elevator is engineered to deliver the consistent, reliable performance demanded in modern grain-handling operations. Every detail is built to support steady material flow, dependable operation and long-term reliability.</i></p>
	<p><u>AGI Spokesperson: Ashley Gierok, Enterprise Sales Manager</u></p> <p><i>Ashley Gierok is an Enterprise Sales Manager at AGI, bringing more than 12 years of experience across the food and agriculture industries. A graduate of the University of St. Thomas with a Bachelor of Science in Chemistry, she began her career in 2014 on the quality testing side with FOSS, where she supported laboratory operations, feed and grain customers, and helped launch new products in the North American market. For the past 2.5 years, Ashley has led sales initiatives at AGI and contributed to major innovations, including serving on the launch team for the new AGI Bucket Elevator. She also serves as Secretary on the GEAPS Minneapolis Chapter board and resides in Minnesota.</i></p>

AGI Spokesperson: JaMall Wilson, Global Design Manager

JaMall Wilson is the Global Design Manager for AGI's Permanent Handling division, where he leads engineering teams focused on innovative ag manufacturing. With degrees in Mechanical Engineering and Business Administration from Wichita State University, he's passionate about growing engineering talent, fostering innovation and helping move agriculture into a more tech-driven future.
